Outdoor Lighting Solutions

STREETLIGHTING HIGH MAST FLOODLIGHTING LIGHTS INSTALLATIONS

To meet the ever growing demand for security lighting, Match Electricals Ltd has positioned itself as a provider of quality security lighting solutions.

We use energy saving luminaries from renowned world class brands(Nikon, Phillips and Osram) in the following technologies:

- ☐ Light Emitting Diode technology (LED) lamps used in street lights
- ☐ High pressure Sodium(HPS) and Metal Halide(MH) lamps used in street lighting
- ☐ High voltage floodlights used in high mast security lighting
- ☐ Solar panels for solar powered lighting systems

Power Transmission & Distribution

Match Electricals Ltd partners with The Kenya Power company in the construction of high and low voltage power lines used in power distribution all over the country.

In conjunction with the Rural Electrification authority we have constructed 66KV, 33KV, 11KV, 0.1415KV. and 0.240KV lines across the country.

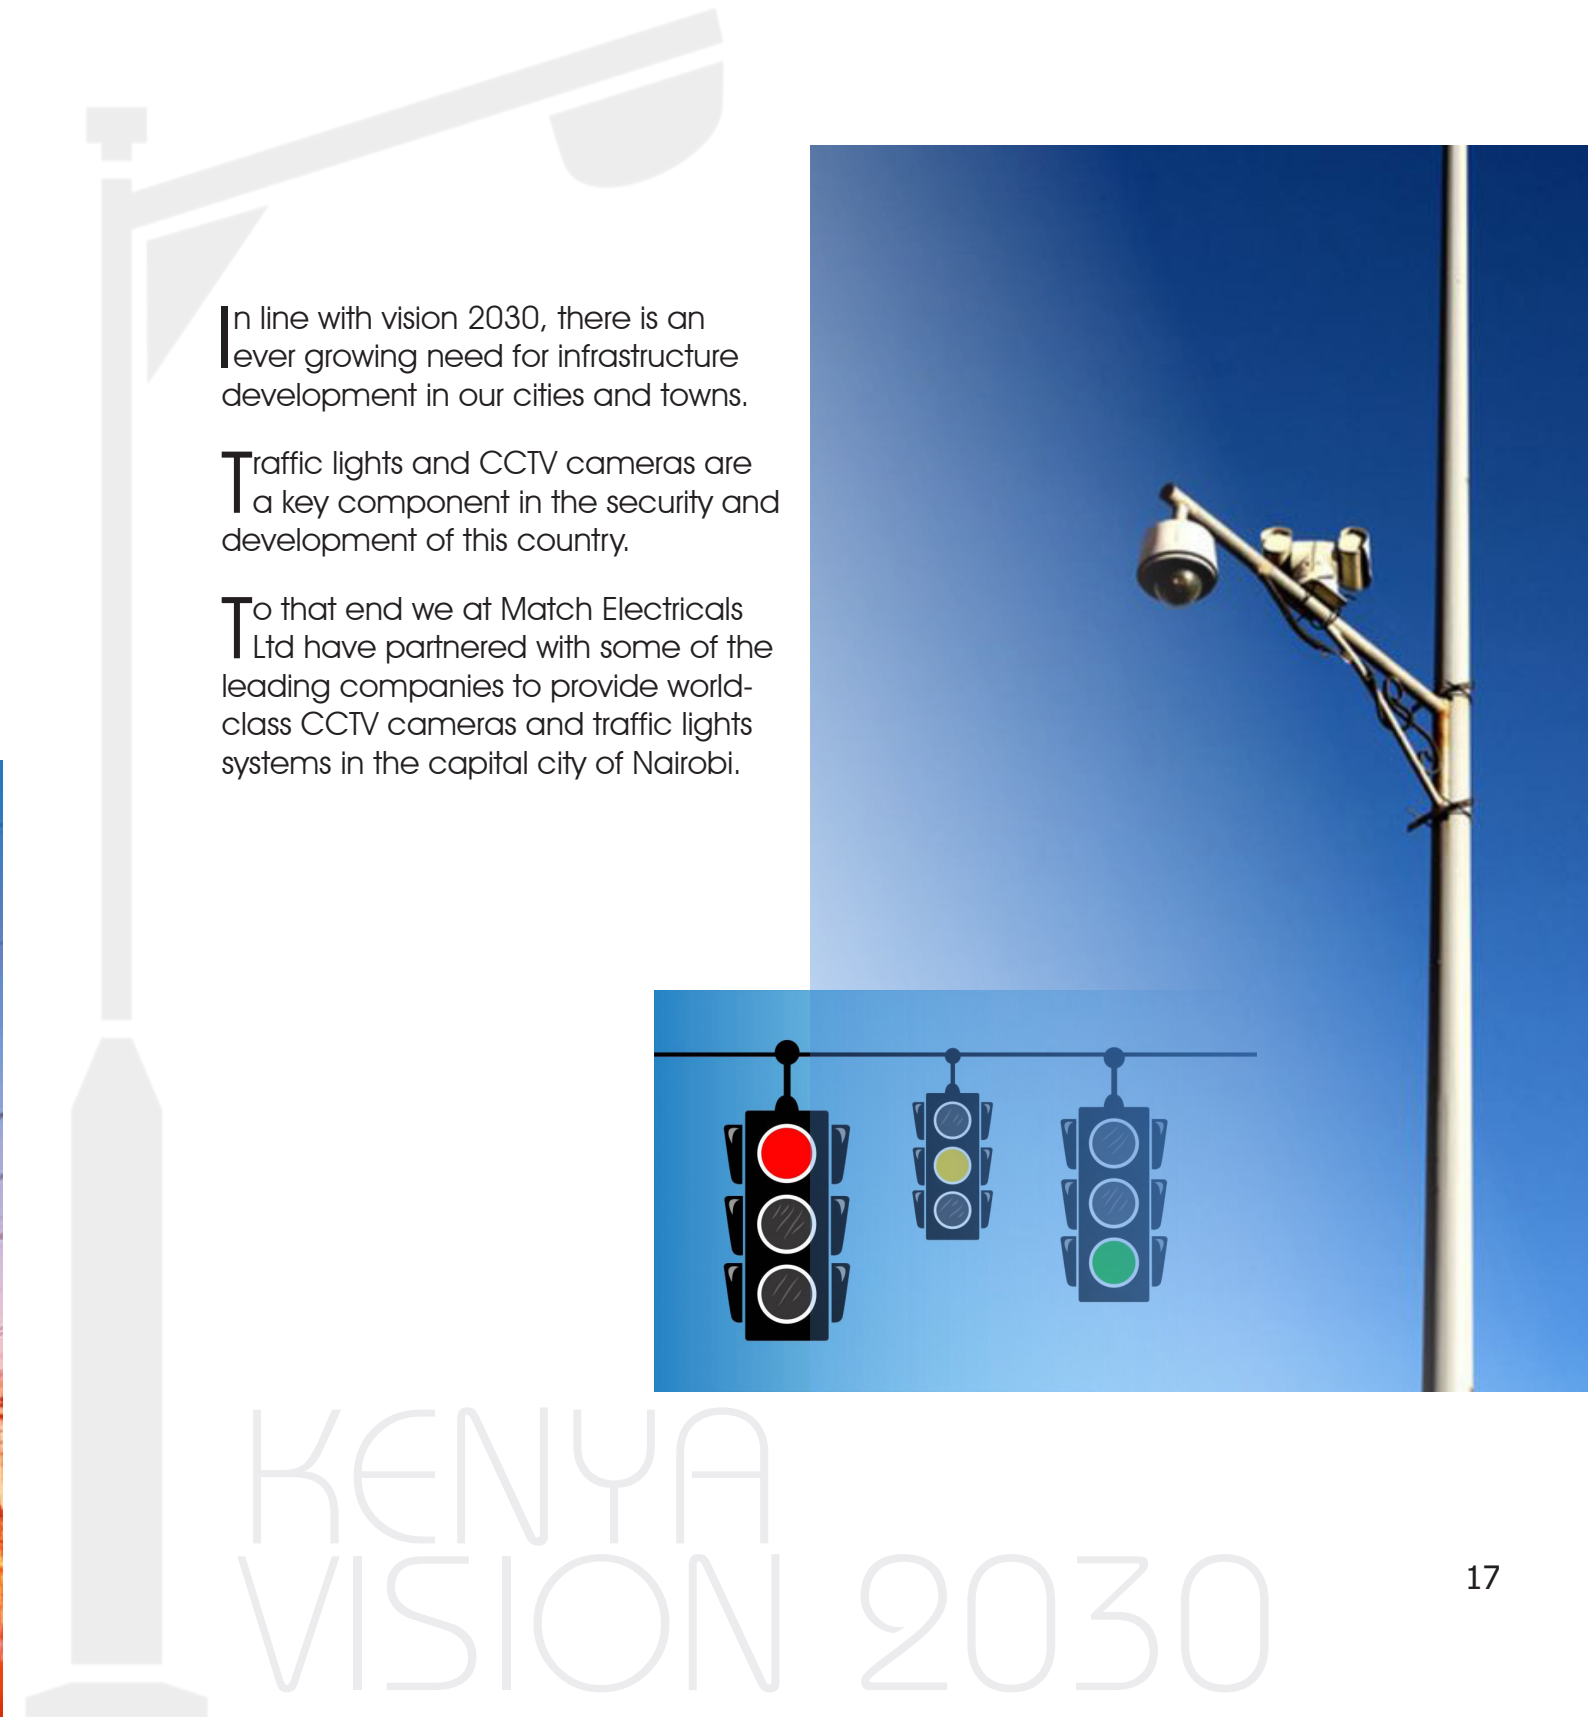

CCTV & Traffic Light Installation

In line with vision 2030, there is an ever growing need for infrastructure development in our cities and towns.

Traffic lights and CCTV cameras are a key component in the security and development of this country.

To that end we at Match Electricals Ltd have partnered with some of the leading companies to provide world-class CCTV cameras and traffic lights systems in the capital city of Nairobi.

Industrial & commercial electrical installation & Supplies

Electrical wiring and accessories (Switches, sockets, cable lugs, glands, ties, terminal blocks, strip connectors, insulations tapes, heat resistant tapes, earth rods, clamps, coppers tapes, and Lightning arrestors)

- Light fittings and accessories (Flood lights [LED, MH, HPS], street lights [LED, MH, HPS], decorative Lighting and indoor lighting)
- Electrical switch gears and controls (MCBs, MCCBs, Contactors, Isolators, Distribution boards and consumer units, Panel boards and Industrial sensors [inductive, capacitive, photoelectric])
- Cables (Armored cables, Multi-core cables, Automation/control cables and Screened cables)
- Motors and accessories (Induction motors both single and three with IP55, 56 and 65 enclosure [IE1, IE2 and IE3 efficiencies], Geared motors and Variable speed drives)

**ELECTRICALS CONTROLS
MOTORS & ACCESSORIES
